

Hinge Solutions from Emil Kaltenbach

Quality Products since 1854

- For Industry and Small Business
- Standard- & Special Assortments
- In Small Series available
- In certified Quality

Standard- & Special Hinges

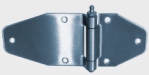

Our portfolio includes a wide range of standard products and in particular a wide variety of customized hinge solutions. Our (CAD based) design expertise always depends on the respective requirements and applications of our customers in industry and small businesses.

The following product areas are available:

Profile Hinges

- From 3 to 10 mm material thickness
- Made of steel or aluminium
- For heavy connections

Rolled Hinges

- From 1.2 to 4 mm material thickness
- Steel, stainless steel, V4A or alu
- For light and heavy connections

Aluminium Profile Hinges

- From 3 to 6 mm material thickness
- For applications up to 60 kg
- Free design and color selection

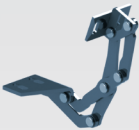

Supplementary Products

- Continuous piano hinges and reels
- Fittings, (heavy duty) angles
- Fasteners and hooks

SEPTOMAX® - Multi-Link Solutions

To be able to meet more sophisticated applications with complex openings and movements we also offer a comprehensive range of multi-joint hinges (SEPTOMAX). This concept also allows a wide range of alternative movements and unique usages; for example lift-off- or swivelling systems.
